EXPERIENCE

CTO / VP R&D • Constrol
2023 – Present

- Built the company's technology organization from the ground up, **driving 2x revenue growth within one year** through scalable architectures and automation.
- Designed and implemented comprehensive **BI, CRM and SaaS platforms** for real-time customer and activity tracking, and introduced AI-driven solutions that improved operational efficiency.
- Spearheaded **workflow automation with n8n, Zapier and MCP-based systems**, streamlining business processes.
- Direct and mentor a **cross-functional team of 18+** delivering end to end in Next.js, React, NestJS, C# and Python.
- Specialized in AI, computer vision, vibe-coding and automated QA, ensuring innovation, scalability and product excellence.

Head of R&D • PayBox (Bank Discount)
2019 – 2023

- Led **3 team leaders and 20+ engineers** delivering complex fintech solutions.
- **Saved $3M+ annually** by optimizing payment processing through international schemes.
- Refactored a monolith into **microservices** and designed the MVP's **event-driven architecture** (pub/sub, orchestration).
- Built mobile **Tap-to-Pay** and led the **Shufersal integration** and architecture (cash-back, gift cards, Supreme points).
- Managed cross-stack projects (Node.js, C#, Kotlin, Swift) with GCP (GKE) deployments and Jenkins CI/CD, partnering with Product, Security (CISO) and Operations to meet business and compliance goals.

Head of Mobile • SpotOption / Dx.Exchange
2014 – 2019

- Led the B2B platform to **10M+ downloads** and **300+ white-label apps**, fully customizable for global partners.
- Led a **cross-functional team of 12** (Android, iOS, QA) scaling B2B mobile solutions at a high-growth fintech startup.
- Defined mobile product strategy and architecture, introduced CI/CD automation and stayed hands-on in Android.
